Billing Clarification for Buncombe County
Residents

This notice is being provided to address recent questions from residents regarding solid waste services billing.

Why You Received Two Bills Close Together

In November 2025, invoices were issued for the fourth quarter of 2025, which covered October, November, and December 2025.

Residents have now received their invoice for the first quarter of 2026, which covers January, February, and March 2026.

These invoices correctly reflect two separate service periods. We apologize for any confusion this may have caused.
